Please find below and/or attached an Office communication concerning this application or proceeding.

	Application No.	Applicant(s)					
	10/701,202	LEE, BENJAMIN MICHAEL					
Office Action Summary	Examiner	Art Unit					
	Kien T. Nguyen	3712					
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply							
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Ea

Art Unit: 3712

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the set of wheel assemblies as set forth in claim 4 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claims 1-4 are objected to because of the following informalities: "Hinging Chair Stand" is not consistent with the title "Hanging Chair stand".

Application/Control Number: 10/701,202

Art Unit: 3712

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Bonnell U.S. Patent 3,344,443.

Bonnell disclosed a hanging chair stand (2) comprising first and second support members each having an arm portion (top portion), a leg portion (bottom portion) and an intermediate portion, the first and second support members coupled to one another at their intermediate portions via cross member (8) and claps (7) as shown in Fig. 3; the leg portions are straight and adapted to rest on a base (ground surface); when resting on the base, the leg portion above which a hanging chair (3) is to be suspended from an end of each arm portion; the arm portions each having a curved shape; and a pair of attachment members (13, 13a) (see Fig. 4) coupled to the ends of the arm portions, the attachment members adapted to suspend the hanging chair over the region defined by each leg portion and the imaginary line connecting the end of each leg portion.

Claims 1-4 are rejected under 35 U.S.C. 102(b) based upon a public use or sale of the invention. The claimed invention was introduced by Green Eggs & Hammocks on 10/07/2002 (see attached sheets) which is more than a year from the filing date 11/04/2003.

Application/Control Number: 10/701,202

Art Unit: 3712

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bonnell ('443) in view of Barnhart U.S. Patent 459,670.

It is noted that Bonnell failed to teach the use of a set of wheel assemblies as set forth in claim 4. However, Barnhart shows a baby jumper or hanging chair having a set for wheel assemblies (B) coupled to base frame (a, a') for mobility of the jumper.

Therefore, it would have been obvious to one of ordinary skill in the art to modify the leg portions of Bonnell with the set of wheel assemblies as taught by Barnhart for the reason as set forth above.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The enclosed references are cited for interest.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kien T. Nguyen whose telephone number is (703) 308-2493. The examiner can normally be reached on 7:30 AM-5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Derris Banks can be reached on (703) 308-1745. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
